

GLIP

THE LIGHTING PARTNER

GLIP by S.I.L.E. snc is officially among the winners of the 1st edition. Call for applications for "Business Digital Transformation Projects" of the European project SILEO Eurocluster.

With the digital transformation project, the company intends to create a digital process that allows the study and creation of BIM files of its products, in collaboration with the technology provider Skeinholding Srl.

This project has an important and strategic importance for GLIP by SILE, as it will allow the reduction of costs and development time of a technical project and the creation of a digital archive of its lighting products.

For the realization of the project, GLIP by S.I.L.E will receive a contribution of € 5,000 indirectly from the program for the single market of the European Union within the project SILEO Eurocluster (GA 101074564).
